MONEY, STOCKS AND BONDS.

Ineffectual Efforts of "Bears" to Break the Market-Missouri Pacific Yields Somewhat. NEW YORK, Nov. 11 .- Money on call was easy, ranging from 3 to 7 per cent., the last loan being made at 3; closing offered at 3 per cent.

Prime mercantile paper, 512@712 per cent. Sterling exchange quiet and weak at \$4.8012 for sixty-day bills, and \$4.85 for demand.

The total sales of stocks to-day were 275,636 shares, including the following: Atchison, 37,155; Delaware, Lackawanna & Western, 7,300; Erie, 16,555; Louisville & Nashville, 4,920; Missouri Pacific, 16,575; Northwestern, 3,100; Northern Pacific, 5,-600; Northern Pacific preferred, 20,261; Reading, 17,850; Richmond & West Point, 8,506; St. Paul, 33,170; Union Pacific, 8,850.

The stock market was feverish and irregular on a very moderate volume of business to-day, and while stocks as a rule were well held, the "bears" attacked some spots with such vigor as to force a material decline. The unfavorable bank statement of Saturday had its full effect this morning, and the fear of tight money did induce some throwing over of long stocks by weak and timid holders, but the passive resistance to the pressure brought by the "bears" forced them to desist after only small results were accomplished. The foreign operations to-day were insignificant, but there was good buying for Boston account, and especially in Atchison, though the market for the most part was a local affair to-day. The early drive was made against Lackawanna, presumably with the intention of dislodging some Reading, but the attempt was a failure and attention was turned to the grangers, and St. Paul in particular felt the pressure severely. There were numerous rumors set affoat in regard to the stock, and the story of the accumulation of a floating debt of \$1,000,000 was most prominent among them. Missouri Pacific was also later made the object of a raid which was more successful than the one upon St. Paul, the effect of which was combated by the earnings for the first week in November, which were the largest for that week in the history of the company. The market, however, was not withpany. The market, however, was not without its strong spots, and Atchison early showed remarkable strength, while Jersey Central, for the first time in many days, rallied materially from its late depression. Among the specialties Manitoba was conspicuous, with a rise of over 2 per cent., followed by Hocking Valley and Ontario & Western. The trusts were again strong, though they were quiet to dull, and failed to retain all of the advance made in the early dealings. Tennessee Coal was specially weak in the first hour, but recovered most of the loss later in the day. There was an attempt to work again the money scare, and money did work a little closer, though most of the business was done at about the legal rate.

The opening, under the influence of the bank statement, was heavy, and was fol-lowed by further fractional losses all over the list. A smart rally followed, but the list was inclined to droop all the forenoon, notwithstanding the strength in the trusts and specialties. Dullness became the most prominent feature of the market in the forenoon, but St. Paul and Missouri Pacific were raided to some purpose, while the general list showed a tendency to recover the slight losses of the forenoon. Another raid was made about delivery hour, and considerable impression was made upon prices, but the market closed fairly steady, generally at small fractions under the opening prices. The only changes of importance to-night are advances of 21s in Man itoba and 114 in Jersey Central and a decline of 11s in Missouri Pacific.

about the legal rate.

Railroad bonds were again active, with a generally firm tone. There were few features of special interest, The Gulf, Colorado & Santa Fe issues were strong, though their final changes were insignificant, and the firsts contributed \$258,000 to the day's total of \$1,943,000. The Reading firsts incomes were also active with \$127,000, and the Chesapeake & Ohio fives contributed \$108,000. The final figures generally show slight advances. slight advances.

Government bonds dull and steady, and State bonds were neglected. Closing quo-

TRADING AT CHICAGO.

Wheat Holds Steady-Corn and Oats Stronger -Better Pork Prices.

CHICAGO, Nov. 11 .- In wheat there was a light trade, and no new features were presented. A prominent local trader was reported as giving some support to the market, only, however, in the way of endeavoring to sustain present prices. Commission houses did only a small business, and traded on both sides. European markets were quoted dull with prices tending down. decrease in the quantity of wheat on ocean passage was predicted. The receipts in the Northwest continue liberal. Receipts at eleven points footed up 1,099,000 bushels, and shipments from the same points, 878,000 bushels. The visible supply showed an increase of 1,130,000 bushels, a little in excess of what had been generally expected. The principal points of increase were Buffalo, Chicago, Duluth, Minneapolis and New York, and the decreases were at the winter points, mainly at Baltimore, Detroit, Kansas City, Philadelphia and smaller points. The market ruled steady all through the session, ket ruled steady all through the session, fluctuations being confined within a 3sc range, and the closing was about the same as on Saturday. In corn a fair trade was reported, though the market was quiet early in the session, but later became more active. The market opened with an easy feeling prevailing, and was inactive some time, to-day's arrivals running over expectations. A better demand then sprung up. A good many scattering orders came on the market, and prices advanced 3s@12c, "shorts" for December and year covering, then eased off 4c on realizing, the decrease in the visible supply of 826,000 bushels not being as large as expected, ruled steady and closed 1s@14c higher than Saturday. Oats were steadier, with a fair volume of business in all futures. "Shorts" bought liberally, and the price "Shorts" bought liberally, and the price for November was bid up 12c without a trade. May, however, was sold by "longs" about as freely as buyers cared to take it, price nein steady. In trading was more active, with the January

Dry Goods. NEW YORK, Nov. 11.—Business in dry goods was principally restricted to orders received by mail, which were fair for seasonable goods and in good proportion for spring fabrics. Transactions on the spot were unfavorably by bad weather conditions, though Monday is usually a quiet day with buyers in the market. There was some improvement in the demand for coarse yarn goods, and converters and exporters took a considerable quantity of brown cottons adapted to their purposes. The market was unchanged and the tone of cotton goods fairly strong.

Trade Rather Quiet—The Weather Too Mild to Create a Demand for Winter Goods.

INDIANAPOLIS, Nov. 11.

In most departments trade to-day was rather quiet, which is attributed to the mildness of the weather, largely. In prices there were no important changes. Dry goods and groceries, in all staple lines, rule firm. Both coffee and sugars East are in stronger position than a week ago. Canned goods are attracting a good deal of attention, and it seems that the statements of the packers that the supply is less than usual this year is no exaggeration. In the produce markets there was a fair business in progress. Retail grocers and dealers in fruits buy only to meet immediate necessities so badly do apples and other fruits decay this mild weather. Farm Notes. A farm does not pay if it merely affords living and prevents the accumulation of debt.-American Agriculturist. Burn all decayed potatoes taken from the cellar or bins, and other potato refuse; do not throw them on the compost heap as the spores retain their vitality, and are spread far and wide with the manure.

Beeves lay on fat faster during this month than in January, and should be forced as fast as it is safe to crowd their appetities.

fast as it is safe to crowd their appetities. The dairy cow must not be neglected. Though dry, she will need just as good rations as when in milk.

In common practice I have found the increase of soil-insects materially arrested by a moderate annual application of air-slaked lime and unleached wood ashes. A substratum of coal ashes, several inches in thickness, placed below spade depth. has also been found very beneficial. It helps the drainage, is repugnant to earth-worms, and is not in any way prejudicial to the plants.—T. H. Hoskins, in Garden and Forest.

There is too much butter and cheese made during the hot months when some of the cows should be either dry or giving the least milk of the year, and not yet enough made during the cold months. There are growing thousands who know that they are mistaken, and that with warm stables and cheaper labor can keep cows in winter far cheaper than they can be pastured in summer on land that is worth \$40 per acre.

THE INDIANAPOLIS JOURNAL

DAILY, SUNDAY AND WEEKLY.

The Most Complete Newspaper in all Departments in the State of Indiana.

No newspaper in the West is more widely or more favorably known than the Indianapolis Journal. By the display of enterprise and strict attention to the wants of the reading public, during the great campaign of 1888, it has taken a leading position among the most prominent journals of the country, and is certainly among the best. Among the newspapers of the State it is pre-eminently the best, and Indiana readers can nowhere else find what they want in the way of State and local news. It circulates largely in every county in Indiana, and has correspondents in every town and village of importance. Its market reports are prepared with the greatest care possible, and no pains or expense are spared to make them accurate and absolutely reliable. It is the only newspaper in the State owning and publishing all the news furnished by the two great press associations (the Western Associated Press and the United Press). in addition to which it furnishes an abundance of special service from all the principal cities of the country. It has been, and will in future be, the aim of the publishers to make the Indianarolis Journal a perfect and complete newspaper, deficient in no department or particular. The paper challenges comparison with any of its contempo-

No Indiana reader, certainly no Indiana Republican, should be without the Journal. While it is thoroughly and soundly Republican in politics, devoted to the interests of the Republican party, the Journal will not allow its news to be colored by partisan bias, but will give the news of the day without fear or

Owing to the prominence of Indiana in the national administration, the Jour-NAL gives particular attention to Washington news, which will be given far more completely than ever before. For this reason, if for no other, no Indiana reader can afford to be without it for the next four years.

In addition to its new features, the JOURNAL regales its readers with the productions of some of the best known llterary men and women of the day. Many of the most celebrated magazine writers and authors are contributors to itsliterary columns, making it apaper for he household and home circle. Special arrangements have been made for features of this character, which will appear in the Journal during the coming year. These appear most largely in the SUNDAY JOURNAL, which is a special edition, and can be subscribed for and received exclusive of the DAILY JOURNAL.
